ANNOUNCING: Global BIGGIES Awards finalists 2018

The Big Data & AI for Media Association is pleased to announce the winners of the Global BIGGIES Awards Competition for 2018. The awards competition drew participation from the most innovative media companies implementing data and artificial intelligence initiatives, and has produced 34 finalists from 14 countries.

The BIGGIES Awards aim to reward best practices in Big Data and artificial intelligence products and strategies to media companies from around the world.

The winners, including Best of Show, will be announced at the BIGGIES Awards Gala on Wednesday, 21 March in New York City, during conference during the 7th Big Data and AI for Media Week, which will take place in New York and Washington, D.C. from March 19-23.
For more information about the conference, and to register for events including the Washington, DC and New York study tour focused on artificial intelligence and big data for media, the Big Data & AI for Media conference, and the BIGGIES Awards Gala, go to http://newyork.bigdatamedia.org

The conference takes place from 22-23 March at Microsoft Technology Center, 41st Street & 8th Avenue, 6th Floor, New York City.

The BIGGIES Awards Ceremony and Gala take place on 21 March from 7-10 p.m. at Columbia University’s School of Journalism, Pulitzer Hall, World Room, 116th & Broadway, NYC.

Big Data & AI for Media Association is proud to announce this year’s finalists of the Global BIGGIES Awards. The BIGGIES were judged by an independent panel of judges from around the world.

The 2018 Global BIGGIES Awards are divided into two groups: A and B

A. Media including newspapers, magazines and digital publications, broadcast, advertising agencies and marketing agencies that circulate/broadcast widely in three or more countries in the world, considered to be international media.

B. Media including newspapers, magazines and online publications, broadcast, advertising agencies and marketing agencies that circulate/broadcast primarily in one area or location, considered to be regional, local or niche media.
